**DETAILED ACTION**

1. Claims 1-49 and 69-74 are pending in this application and have been examined.

***Response to Arguments***

2. Applicant's arguments, filed 9-26-05 with respect to claims 1-49 and 69-74, have been fully considered and, when taken together with the changes made to the language of the claims by the latest amendment, are persuasive in overcoming the rejections of claims as found in the previous Office Action.

***Allowable Subject Matter***

3. Claims 1-49 and 69-74 are allowed.
4. The following is an examiner's statement of reasons for allowance: The closest prior art in the field; Johnson EP 1 032 159 A2, when taken singly and in reasonable combination with the other prior art in the field, does not teach the features found in the independent claims of:

As for independent claim 1, encrypting portions of a stream of data with an encryption key that is capable of being decrypted by a decryption key, where the portion of the data includes another decryption key capable of decrypting a subsequent portion of the stream of data, and where data identifying the location of the another decryption key is found in a location separate from and not part of the encryption key, and where a subsequent portion of the stream is encrypted with another encryption key that is

capable of being decrypted by the another decryption key, claims 2-49 are dependent on claim 1 and are thereby allowed on the same basis,

As for independent claim 69, the decryption process corresponding to the encryption process taught by independent claim 1, claims 70-74 are dependent on claim 69 and are thereby allowed on the same basis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
